Re: Ordinance No. 2009-29

The City Council approved Ordinance No. 2009-12 regulating non-stormwater discharges to the storm drainage system. It was subsequently discovered that there was an error in the definition of "pollutant" at Section 4.10.020(12). Within the definition, the word "articles" had been incorrectly replaced with the word "ordinances." This subsection of the code should properly read as follows:

"Pollutant" shall mean anything which causes or contributes to pollution. Pollutants may include, but are not limited to, paints, varnishes, and solvents; oil and other automotive fluids; non-hazardous liquid and solid waste and yard waste; refuse, rubbish, garbage, litter, or other discarded or abandoned objects, *articles*, and accumulations, so that same may cause or contribute to pollution; floatables, pesticides, herbicides, and fertilizers; hazardous substances and waste; sewage, fecal coliform and pathogens; dissolved and particulate metals, animal waste; wastes and residues that result from constructing a building or structure; and noxious or offensive matter of any kind.

Ordinance No. 2009-29 is proposed to amend prior Ordinance No. 2009-12 to resolve this error.
